

FRECKLES

Now is the Time to Get Rid of Those Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of ointment—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.

ENGLISH COLLEGE GIRLS VOLUNTEER FOR FARM WORK

London, July 16.—(Correspondence of the Associated Press).—Farm work for women has become fashionable. College girls from Newham, Oxford and almost the entire enrollment from Sheffield University are among the volunteers for war work in the fields, and girls who had previously devoted all their energies to sport and fashion are making a fad of it.

A special costume for women farmers has been designed and exhibited at a women's farm work show given by Lady Cowdray at her London home. The suit is made of tough brown linen fashioned into a loose coat buttoned down the front. Knickerbockers of the same material are worn underneath, buttoned below the knee. This costume is not only cheap

but allows as much freedom of movement as man's dress. Because of the knickers, the women farmers can climb trees for pruning or picking fruit. At Lady Cowdray's exhibition every branch of farm work was represented, dairying, gardening, orchard work and work in the fields.

Some prejudice is encountered on the part of the old-fashioned farmers. When they receive an application for work from a girl who looks like the dairymaid of a comic opera, they are inclined to give a refusal on the spot. Most of the applicants have little idea of what real farm work is like. They think of a rose-covered cottage, with tea served in the garden among the flowers and an arched existence. But they are willing to learn about pigs, chickens and stock, and generally do well at fruit picking and hay raking.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

SALVATION ARMY APPEALS FOR MONEY TO PUSH WORK

London, July 16.—(Correspondence of the Associated Press).—The Salvation Army is making an appeal for \$750,000, an increase of \$250,000 over a year ago, to finance its social work connected with the war. Out of this money, the Salvationists expect to allow \$50,000 for work among the soldiers and sailors, and \$25,000 is set apart for the relief of the army's sick and wounded, as 20,000 members are now serving with the British forces, exclusive of the Canadian, Australian, and other colonial divisions.

Other sums allotted are \$75,000 for work among the homeless, \$100,000 for the training of Salvationist officers, \$100,000 for the maintenance of work in India, and \$75,000 in Japan, Korea, Java, Africa, and the West Indies. The rest is used in other charities and religious work.

During the past twelve months the Salvationists supplied more than thirteen million meals and eight million night's lodgings to the poor.

Every military camp or place frequented by soldiers has some kind of Salvationist work going on. But the recreation and social huts are maintained by the Young Men's Christian association.

GERMANS HAVE SUCCESSFUL METAL-DESTROYING LIQUID

THURK, France, July 15.—The Germans are now using a metal-destroying liquid on the western front, similar to that which they have used for some time against the Russian wire entanglements.

The liquid is contained in a cylinder under high pressure. The cylinder is carried on a soldier's back like a fire extinguisher; the turning of a lever releases the liquid, which is thrown in a stream about ten feet against the barbed wire, burning it through more quickly than wire-cutters could sever it.

GIGANTIC PLOT TO SINK SHIPS ON HIGH SEAS

OFFICIALS UNCOVER CONSPIRACY TO DESTROY SHIPS SAILING FROM NEW ORLEANS AND NEW YORK.

Washington, July 15.—The Washington Times in an extra says: "Secret service agents are co-operating with the police of practically every eastern and southern city in an effort to run down what is believed to be a conspiracy, gigantic in scope, to destroy freight steamers clearing from American ports for England and France.

"The expose is nearly ready. It is freely reported, and officials expect revelations of so startling a nature as to surprise the world.

"A large amount of money is behind the conspiracy. It is hinted in well informed quarters.

"An idea of the magnitude of the suspended plot may be obtained from the fact that secret service men blame the conspirators even for the attempt months ago to destroy the French liner La Touraine.

"It was reported at the time that the fire on the vessel was caused by spontaneous combustion, but officials now believe a fire bomb started the blaze.

"The conspirators also are believed to be responsible for the placing of similar internal machines aboard the steamships Kirk Oswald, Blankdale, Devon City, Lord Erne and Cressington Court."

"Federal agents said that, while it gave them a new theory to work on, they did not connect the New Orleans 'Pearce' letters which they regarded skeptically as to its genuineness, with the case they had in hand.

"New York reports," said the Times, "are that arrests are momentarily expected there of men, all said to be in a conspiracy to plant bombs aboard English vessels supplementing the submarine warfare of Germany. Whether the New York conspirators are affiliated with 'Pearce' or were affiliated with Holt, is not now indicated.

"Government agents and New York detectives under Police Commissioner Woods are inclined to believe that several of the men engaged in the conspiracy will admit their connection with it and expose the entire scheme when they are placed under arrest.

"The authorities say the plot to destroy the liners is one of the biggest that has developed since the war began and that it is backed by an almost unlimited amount of money. It was stated, too, that publication of the names of the inner circle controlling the conspiracy will cause tremendous surprises.

"Every pier will be guarded closely and every package will be examined before it gets aboard any liner.

"The bombs which have been found in several ships, and which the detectives say were placed in many others, sailing from 'United States' to the allied countries, are not of dynamite but of highly inflammable chemicals which are designed to burst into flames from the heat of the ship's hold.

"The bombs found on all the ships were similar. They were small cylinders constructed of one about four inches long and one and a half inches in diameter. They resemble shotgun shells, and at the base of the bomb was a screw cap and a small cap, supposedly for the introduction of the chemicals. They are self-combusting and only their failure to explode caused their discovery."

Mine Work Resumed.

Coalgate, Okla., July 15.—H. A. Everett, superintendent of the Hazelton Coal company, announces that the company will resume operation of their mine here on August 1. Before the shut-down in April the Hazelton company employed 125 men, most of whom have remained here and will be given preference in employment. In the event the conditions of the market will justify, the mine will be opened with a full force.

Constipation Cured Overnight.

A small dose of Pe-Do-Lax tablets and you enjoy a full, free, easy bowel movement in the morning. No griping. No Pe-Do-Lax is Pe-Do-Lax (Malt Apple) without the grape. Pe-Do-Lax corrects the cause of Constipation by stimulating the Liver, increasing the flow of bile. Bile is Nature's cathartic in the bowels. With the proper amount of bile digestion in the bowels is perfect. No gas, no fermentation, no flatulence. Don't be sick, nervous, irritable. Get a bottle of Pe-Do-Lax from your Druggist now and cure your Constipation overnight.

HARM DONE TO GERMANY BY "OLD FOGIES"

PROFESSORS BEHIND TIMES ON INTERNATIONAL LAW — TEUTON SYSTEM PUTS IT OUT OF SYMPATHY WITH NEUTRALS.

Berlin, July 15.—A very remarkable article appeared recently in "Das Forum," a Munich review of "high culture," which, a correspondent on the Italy-Swiss frontier says, has been given great prominence in Swiss papers. The article, adds the correspondent, is regarded as a significant indication of a return to common sense among German professors.

Prof. Walther Schucking, the distinguished jurist, declares quite bluntly that cultured Germans, and particularly university professors, have done immense harm to their country through their war propaganda. He says:

"They have employed German knowledge and German science during this crisis to the benefit of the fatherland, but the way in which they have gone to work with their pamphlets and their declarations has been so singularly stupid that results have been obtained which are quite contrary to those desired.

"For many decades we all knew that the principal representatives of German learning and science thought on retrograde lines. The point of view of our historians has been a mixture of national liberalism and Pan-Germanism, and it is this point of view which has resulted in the destruction of those spiritual bridges which linked Germany to foreign nations."

Professor Schucking denounces the complaisance with which high-class and cultured German society accepted before the war lectures on international law from "old fogies" who did not know what they were talking about.

"If I," he says, "whose business it is to know something about law, began to air my views upon problems of strategy, no one would take me seriously. And yet old generals are allowed to mold public opinion on problems of international law."

"The whole of our constitutional system," adds Professor Schucking, "is destined to put us in opposition even with nations of our own race. The Norwegian people is a case in point. Democracy continues to be looked upon with horror by our ruling classes, whereas it is accepted naturally by foreigners."

THRESHER HANDS STRIKE FOR HIGHER WAGES

Chickasha, Okla., July 15.—A strike of the threshing crews of this county for higher wages stopped threshing on a number of farms in this county Thursday. The owners of the machines refuse to give the advance asked for and threshing of the grain has stopped. The men asked for a raise of a dollar a day in their wages. They assert that the weather is too hot and the work too hard for the wages given. They have been getting \$1.50 per day.

When you feel laxy, out of sorts and even a good deal in the daytime, you can change it to a torpid liver which has allowed the system to get full of impurities. HERBINE cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels, and puts the system in good healthy condition. Price 50c. Sold by Bonmar Drug Co.

CRIMINAL COURT OF APPEALS POSTPONES DATE OF EXECUTION

Oklahoma City, July 15.—Appeal has been made to the Criminal court of appeals in the case of R. C. Moorehead, under sentence of death upon conviction of the murder of Clifford Garrison at Snyder last February. The sentence of the court that Gar-

Tutt's Pills

risson be executed July 30 has been superseded by an order of the criminal court of appeals deferring execution until after the appeal shall have been passed upon by that court. There was delay in filing the appeal owing to a demand by the clerk of the supreme court for the fee of \$15 provided by law. The criminal court of appeals has held that where the transcript shows, as in this instance, that the case had been conducted throughout on a showing of inability to pay costs there is no occasion for a new affidavit of inability to be attached to the record on appeal.

This respite for Moorehead will leave but one death sentence hanging over a prisoner in this state. That is the case of Henry Bookman, from McIntosh county. Bookman is sentenced to die Aug. 6, but there is a probability that his case also will be appealed to the criminal court of appeals.

Traveling Man's Experience.

"In the summer of 1888 I had a very severe attack of cholera morbus. Two physicians worked over me from four a. m. to six p. m. without giving me any relief and then told me they did not expect me to live; that I had best telegraph for my family. Instead of doing so, I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and take no substitute. I took a double dose according to the directions and went to sleep after the second dose. At five o'clock the next morning I was called by my order and took a train for my next stopping point, a well man but feeling rather shaky from the severity of the attack," writes H. W. Ireland, Louisville, Ky. Obtainable everywhere.

Install Renovator.

Coalgate, Okla., July 15.—W. W. Ratland, manager of the Coalgate Grain company, announces that a grain renovator has been purchased and will be installed within the next ten days that will have a capacity of 2,000 bushels per day. The new machine will clip and clean the oats. It is claimed, and scour the wheat, and will remove all faulty grains and place the grain in a marketable condition. An elevator of sufficient capacity to handle the grain for this machine is being built.

A Doctor's Prescription for Cough.

An Effective Cough Treatment. One-fourth to one teaspoonful of Dr. King's New Discovery, taken as needed, will soothe and check Coughs, Colds and the more dangerous Bronchial and Lung Affections. You can't afford to take the risk of serious illness, when so cheap and simple a remedy as Dr. King's New Discovery is obtainable. Go to your Druggist today, get a bottle of Dr. King's New Discovery, start the treatment at once. You will be gratified for the relief and cure obtained.

FRENCH BOY SCOUT RECEIVES HIGH FRENCH DECORATION

Paris, July 16.—(Correspondence of the Associated Press).—Yves Meval, a Boy Scout only 16 years old, has just been decorated with the coveted war cross of France (Croix de Guerre). Meval went through the whole of the first Argentine campaign, and was mentioned in the orders of the day for bravery in dispatch-carrying and in the trenches. Just at the close of that memorable campaign he was wounded three times, and was sent back to a hospital at Chalons. His medal was awarded to him while he was still in the hospital, and was pinned to his breast in the presence of a great gathering of boy scouts as soon as he was able to make the trip to Paris.

When the war broke out, Meval
